ABOUT THE NRSB

The NRSB is a non-profit organization operational since 1998, when the EPA privatized its radon proficiency program. The NRSB is independently run by industry experts, who voluntarily oversee all of our programs.

NRSB certification is a formal recognition by the EPA and the States for professional excellence based on qualifications, high ethical standards, and continuing education in radon services.

The National Radon Safety Board (NRSB) certification program offers independent certification, accreditation, and approval for:

- Measurement Specialist (RMS), Measurement Technician (RMT) & Mitigation Specialist (RRS)
- Accreditation of Laboratories & Chambers
- Evaluation & Approval for Radon Measurement Devices
- Evaluation & Approval of Initial and Continuing Education courses

Developments

- The NRSB recognizes all ANSI/AARST radon standards, as well as previously recognized radon standards established by the EPA and ASTM
- An NRSB certificate holder must follow the standards recognized by the state in which any work is done
- The Certificate Holder's QA plan must cite the standards used
- The NRSB recognizes certifications for RMS, RMT, and RRS issued by either the NRPP or by a state licensure program. An NRPP or state radon credentialed individual may transfer their in-kind credential(s) to the NRSB Certification
- The National Radon Safety Board (NRSB) proudly announces that our exams have been officially approved by the State of New Jersey's Department of Environmental Protection Radon Program
- New Continuing Education Courses based on the ANSI/AARST standards for measurement and mitigation for multi-family housing, schools/daycares, and large buildings

National Radon Safety Board
NRSB
Certified Radon Professionals

- The NRSB website is a great resource for professionals and consumers
- Search engine for consumers to find certified professionals
- Navigational structure is user-friendly
- Responsive web design; it will function on mobile devices, tablets and desktops
- One stop destination for all your certification/renewal needs

The screenshot shows the 'EXAM INFORMATION' page on the NRSB website. It features a green header with the NRSB logo and a search button. Below the header is a navigation menu with options: HOME, FOR CONSUMERS, FOR PROFESSIONALS, EDUCATION, EXAMS, and MORE. The main content area has a green background with the text 'EXAM INFORMATION' and a yellow box containing instructions: 'Please check with the state radon representative to see if the state where you will be performing work has regulations. You can find your states information here: <https://gispub.epa.gov/radon/>. If you are taking the NRSB exam for a state license, you must check with your state to make sure you are taking the correct NRSB exam. All exam fees are non-refundable.' Below this is a 'SPECIAL INSTRUCTIONS' section with a bulleted list of exam rules.

The screenshot shows the 'FIND A PROFESSIONAL' page on the NRSB website. It features a green header with the NRSB logo and a search button. Below the header is a navigation menu with options: HOME, FOR CONSUMERS, FOR PROFESSIONALS, EDUCATION, EXAMS, and MORE. The main content area has a white background with the text 'FIND A PROFESSIONAL' and a search form with fields for 'State & Zip C...', 'Last Name', 'Certification', and 'Company'. Below the search form is a profile for '21 . Lois Distenfeld' with contact information: Company: TCS INDUSTRIES INC., City: Harrisburg, State: PA, Zip: 17112, Phone: (717)657-7032, Fax: (717)657-7032, Website: <http://www.radondetek.com>, Certification: RMS, Certification Number: 3SS0027, Expiration Date: 9/30/2023, Device Used: AC.

The screenshot shows the 'RENEW YOUR CERTIFICATION' page on the NRSB website. It features a green header with the NRSB logo and a search button. Below the header is a navigation menu with options: HOME, FOR CONSUMERS, FOR PROFESSIONALS, EDUCATION, EXAMS, and MORE. The main content area has a white background with the text 'RENEW YOUR CERTIFICATION' and a section titled 'To renew your Radon Measurement and/or Radon Mitigation certification you will need to complete the following:'. A 'Please Note:' box states: 'You are required to use an approved NRSB device'.

The screenshot shows the 'HOW TO BECOME CERTIFIED' page on the NRSB website. It features a green header with the NRSB logo and a search button. Below the header is a navigation menu with options: HOME, FOR CONSUMERS, FOR PROFESSIONALS, EDUCATION, EXAMS, and MORE. The main content area has a white background with the text 'HOW TO BECOME CERTIFIED' and three sections: '+ HOW TO APPLY FOR RADON MEASUREMENT TECHNICIAN (RMT)', '+ HOW TO APPLY FOR RADON MEASUREMENT SPECIALIST (RMS)', and '+ HOW TO APPLY FOR RADON MITIGATION SPECIALIST (RRS)'. A 'To ensure you are following all regulations in the state(s) you will be performing radon services in, we advise you to check with the state radon representative for up to date information.' section is also present.

National Radon Safety Board

NRSB

Certified Radon Professionals

- NRSB recently added an advanced search engine for consumers that enables the consumer to prioritize zip code proximity
- Professionals are now able to list all states where they hold licenses
- New portal for professionals to access all certification/renewal tools
- A new, secure, on-line payment link will be integrated into the Certification Portal

Some recent and future Website updates!!
