# Annual 2022 SIRG Summary Report

## [2022 SIRG Summary Report](#)

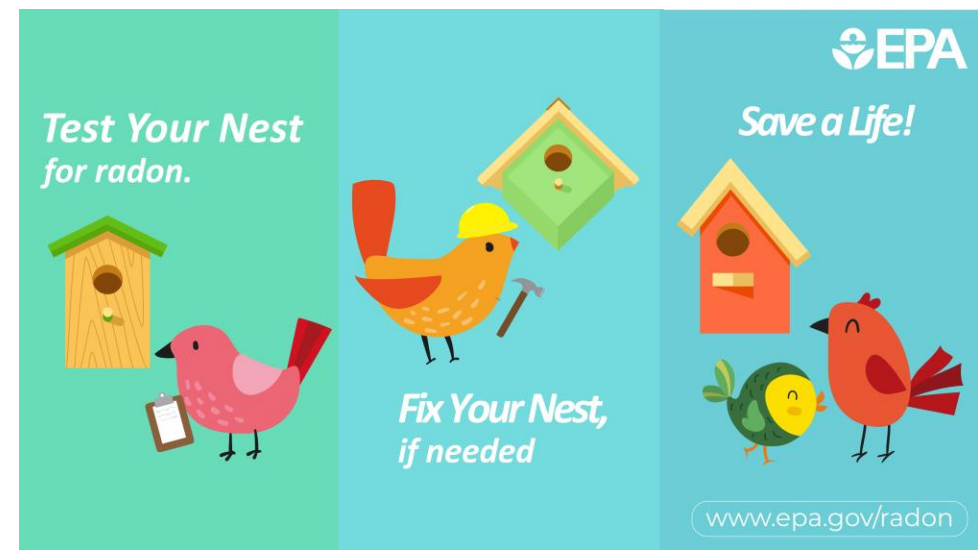

- Several counties in Virginia and West Virginia recently adopted IRC Appendix F requirements.
- The DC-DOEE worked with their partners to update their 2022-2027 Cancer Control Plan. The inclusion of radon strategies represents an increased focus on radon risk reduction and preventing radon-induced lung cancer for District residents.
- PADEP published an article in the Health Physics Journal titled: “Residential Homes with Extremely High Indoor Radon Concentrations in Southern Lehigh County, Pennsylvania”.

# Regional Next Steps

- Continue to push for the updated State Indoor Radon Grant Guidance (2007)
  - R3 recently awarded a grant to Muhlenberg College for radon outreach
  - Work with the states to look for opportunities to utilize the additional funding
- 

# 2024 NRAM

- Create new radon factsheets
- Use the Region 3 created “*Test Your Nest*” theme for NRAM outreach
- Coordinate two (2) webinars on radon mitigation options funding for states and radon mitigation funding availability for the public
- Develop partnerships with HUD offices to see how HUD funding can be used for radon mitigation
